

ZIPSLIDE SCREEN SPECIFICATIONS (MOTORISED AND CRANK)

Zipslide motorised screens have a canister size of 140mm x 140mm and have the side tracks size 40mm x 40mm.

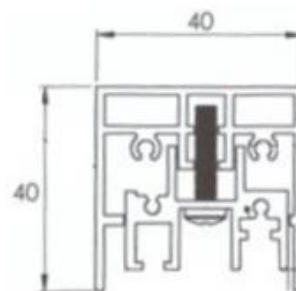

These screens can cover areas of the given measurements:

- 1200mm to 6500mm wide
- 1200mm to 3200mm high

The Zipslide motorised screens come with a remote control for efficient use.

If you do not opt to go with the motorised option, we also provide the option for a crank system with a crank on the side of the screen as you require (left or right).

Note: Not to scale.
